MADISON PREMIUM MODELS

- 25,000 Btu Nat, 36-inch, 4-piece Log Set, 4 x 6 5/8 Venting
- 27,000 Btu LP, 36-inch, 4-piece Log Set, 4 x 6 5/8 Venting
- 28,000 Btu, 42-inch, 4-piece Log Set, 5 x 8 Venting
- 30,000 Btu, 48-inch, 4-piece Log Set, 5 x 8 Venting

The Premium Madison includes a tempered glass view window and a four-piece log set, mounted atop our legendary Slope Glaze Burner for a rich flame pattern within a taller, deeper log stack that complements the deeper fireplace (20 inches).

Premium Madison fireplaces are offered in Millivolt models (with standing pilot), in Intermittent Pilot models (includes battery backup), and in Multi-Function Remote models. Our IP and Multi-Function Remote models eliminate the standing pilot for even greater efficiency and energy savings.

Multi-Function Remote Models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature. These models can operate with a standing pilot, to provide heat during a power outage.

Madison Luxury models feature ceramic glass (for better heat transfer), a dimmer-controlled accent lamp inside the fireplace, an automatic blower, and an intricately detailed 13-piece log set atop the Slope Glaze Excess Burner for a fuller ember bed. And with their larger flame, Luxury fireplaces produce more heat. Choose a liner – in Brick, Stone or Black Reflective.

Luxury models are offered in Millivolt (with standing pilot), Intermittent Pilot, and in Multi-Function Remote models. Our IP and Multi-Function Remote models eliminate the standing pilot for even greater efficiency and energy savings. Multi-Function Remote models include a thermostat remote control that automatically varies flame height and blower speed to maintain your pre-set temperature. In the event of a power outage, these fireplaces can operate with a standing pilot to provide uninterrupted heating.

MADISON DIRECT-VENT MULTISIDED FIREPLACE SYSTEMS

Heater Rated at 35,000 Btu input, the Madison direct-vent system draws in outdoor air to support combustion and sends its exhaust directly outdoors, and must be located in a position that allows venting through an exterior wall or through the roof. Multi-sided Madison fireplaces install using readily available 4 x 6 5/8 direct-vent pipe.

Madison systems include a built-in 24-inch Slope Glaze Vista Burner, large tempered-glass viewing windows, Banded Brick Liner, ceramic fiber floor liner, dimmer controlled lighting, and glowing embers. The 24-inch Raleigh Log Set and barrier screens must be ordered to complete the fireplace. (Doors are not available on multisided fireplaces.)

The Madison Premium 36-inch Peninsula Direct-Vent Fireplace (DVP36PP) includes Slope Glaze Vista Burner (for use with Raleigh refractory log set only), large tempered glass view windows, and Banded Brick Liner shown in Custom Mantel. Fireplace also available in See-Through models with two open sides.

Rugged looking refractory logs give the Raleigh Log Set a rustic look on a grand scale.
