

Installation Instructions

Important: Please read these instructions before starting work.

1. Check that there are no buried pipes or cables before drilling and holes. Take extreme care when using electrical equipment near water.
2. Do not fix accessories onto newly painted surfaces as chemical reactions could cause discoloration to the products. (Please refer to the manufactures instructions.)
3. We recommend the use of a specialized drill bit when fixing accessories to tiled areas.

Supplied Mounting hardware:

Plastic mirror protector, decorative caps, mounting post, allen key, mounting screws and wall plugs.

Mounting Instructions:

1. Establish the position for the accessories, making sure there is sufficient room.
2. Hold one installation post in the required lower horizontal position onto the wall and mark position with a pencil. Determine distance between the two installation posts (the position of the lower posts is at the discretion of the customer or 1" from mirror sides edges), ensuring the marks are horizontal by use of a carpenter's level.
3. Drill holes to a depth of 1" inch using a ¼" inch drill bit and insert the wall plugs so they are flush with the wall.
4. Fix the lower installation posts with mounting screw to the wall by threading the supplied screws into the wall plugs
5. Dry fit the vertical posts, determine distance between the two installation posts (the position of the vertical posts is at the discretion of the customer), ensuring the marks are horizontal by use of a carpenter's level.
6. Fix the installation posts mounting screw to the wall by threading the supplied screws into the wall plugs
7. Once the mounting posts are secured, fit decorative caps to post and tighten using supplied Allen key.

Care Instructions:

We recommend regular cleaning with a mild soap and dried with a soft cloth. The use of abrasive cleaners or bleaches will damage the finish.
